

# Equipment List

## Semester in Alaska

**Welcome to NOLS!** We look forward to having you with us this summer in Alaska.

This list will help you decide what to bring with you to Alaska. The NOLS Alaska outfitting department can provide you with all the equipment on this list other than those items designated “must bring” or “bring if you want.” **We recommend that you only bring gear that you already own. The actual gear needed for your course may vary slightly, depending on instructor judgment, course location, season and recent weather.**

On the first day of your course, you will meet with one of your instructors and inspect each item you have brought. If the item meets our standards and is suitable for the course’s curriculum goals, season and prevailing weather conditions, you can use it on your course. If an item is not approved, you may leave it with your baggage at our base in Palmer.

**We recommend renting gear from NOLS rather than purchasing expensive gear specifically for your course.** While you do not have to rent gear from us, there are several reasons why we suggest it. Our rental gear is high quality, chosen and maintained specifically for the use it receives on our courses. The rental prices are reasonable given the wear the equipment receives. Also, if you plan to eventually purchase gear, you will have a better understanding of your future needs and preferences after the course. Finally, even if your equipment is appropriate, it will receive lots of hard use. Students are often surprised at the amount of wear put on their personal gear during a course. If you still wish to buy gear before your course, please read our equipment descriptions carefully and contact us if you have any questions. NOLS Alaska strives to find appropriate lightweight gear for our courses. You should strongly consider weight when purchasing gear for your course. Every ounce counts toward the total weight of your pack.

This equipment list is designed to give you information on the items you’ll need for your expedition, as well as the functions your gear will serve. Please see also the boot fitting instructions in your enrollment packet.

In addition to your course tuition, you have been billed an equipment deposit, which will be applied to the charges you incur for rental, cleaning, purchase of personal items and any loss or damage to our gear. Total charges will vary depending upon the amount of equipment that you rent or purchase from us. Please use the table below to estimate your equipment charges. If your bill is less than the deposit, the difference will be refunded to you by mail. If your bill exceeds the deposit you can either pay NOLS Alaska with check, cash, traveler’s check, or MC/Visa, or NOLS can mail a final bill to your home address. Please note that **ALL PRICES ARE SUBJECT TO CHANGE.**

These rental prices are in 3-week blocks. If you use an item for more than one 3-week section (e.g. a backpack that you use for both backpacking and mountaineering or an insulated jacket that you rent for the entire semester) you will be charged for two 3-week blocks.

If you have any questions, or if you would like more information regarding any of the items in the equipment list, please contact our staff in Palmer at 907-745-4047; or [alaska@nols.edu](mailto:alaska@nols.edu); or visit our web site at <http://www.nols.edu>

**The availability of each item is indicated as follows:**

**Rental** –the item can be **rented** from NOLS.

**Purchase Only** – the item can be **purchased** from NOLS.

**Must Bring** – the item is **not available** from NOLS, but is required.

**Bring If You Want** – the item is **not available** from NOLS and is optional for your course.

## Upper Body Clothing

You will want to have at least three (3) insulating layers, a wind-proof layer, a rain layer and a t-shirt. Make sure your layers fit comfortably over each other. One layer must be a fleece or insulated jacket such as a Mountain Hardwear Compressor jacket. If you get cold easily, we suggest that you count on taking four insulating layers.

Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Base Layer (Long Underwear Top)	Purchase Only	\$25-\$75	1-2	Mid- or expedition-weight polypropylene or polyester is best. Mid-weight only constitutes half a layer while expedition-weight counts as a whole layer. (Examples: Mountain Hardwear Extend, Patagonia Capilene.)	
Thin Fleece or Heavy Long Underwear	Purchase Only	\$45-\$100	1	This can be any secondary fleece layer of 100- to 200-wt polar fleece. An expedition weight long underwear top can be substituted.	
Fleece or Insulated Vest	\$13.50	\$45-\$150	1	You may want a vest to supplement the upper layers. Insulation should be some type of polyester such as Light Loft, Polarguard 3D, and Thinsulate. We rent fleece vests as an extra layer.	
Fleece Jacket	Bring If You Want	Bring If You Want	1	300-weight fleece jacket that fits over your other layers. Wind stopper or other tech fleeces are fine but not necessary.	
Insulated Jacket	\$18.75	\$110-\$200	1	An insulated jacket, such as the Mountain Hardwear Compressor or the Patagonia Puffball, is a good third layer. This jacket should fit over your other layers.	
Synthetic or Cotton T-shirt	Purchase Only	\$10-\$35	1	To wear on warm days. We strongly encourage the lightweight polyester, polypro, or coolmax top because it can dry much more quickly than a cotton T-shirt. We have these for sale with the NOLS AK logo.	
Wind Shirt	\$13.50	\$50-\$150	1	Nylon wind shell, preferably with a hood (not waterproof) that should be roomy enough to fit comfortably over all upper-body layers. Gore-Tex is acceptable.	
Rain Parka	\$18.75	\$99-\$200	1	We rent three-layer Gore XCR Parkas as a rain parka with a hood. It should be roomy enough to fit comfortably over all upper-body layers. Coated nylon or waterproof breathable jackets and parkas are acceptable. <i>Ponchos are unacceptable.</i>	
Skonorak or Paddle Jacket With Hood	\$18.75	\$175	1	For the paddle section. We rent a waterproof/ breathable pullover with hood. If you bring one it must be waterproof and have a hood. Gore-Tex or other waterproof/ breathable fabrics are acceptable.	

### Upper Body Layers (Continued)

Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Personal Flotation Device	\$13.50	\$50-\$120	1	A Class III PFD designed for kayaking. We recommend renting ours.	

### Lower Body Clothing

You will need two lower-body insulating layers that should fit comfortably over each other and underneath your wind or rain pants. These should be medium weight base layer (long underwear) bottoms and either an expedition weight polypro bottom, fleece or insulated pants.

Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Base Layer (Long Underwear) Bottoms	Purchase Only	\$25- \$50	1-2 pair	These must be mid-weight polypropylene, polyester (e.g. Capilene, Extend by Mountain Hardwear). Cotton and Duofold are unacceptable.	
Nylon Shorts	Purchase Only	\$25-\$45	1 pair	Light athletic shorts are fine. These do not serve as an insulating layer.	
Fleece or Insulated Pants	\$13.50	\$65-\$100	1 pair	We rent polar fleece pants with an ankle zip or insulated Mountain Hardwear Chugach pants. Expedition weight long underwear bottoms may also acceptable.	
Wind Pants	\$13.50	\$55-\$100	1 pair	Nylon shell pants. These should fit comfortably over all lower-body layers. Side-zippers allow the pants to be put on over boots. Breathable fabrics such as Gore-Tex are acceptable, but lightweight "running pants" are NOT durable enough. We recommend renting NOLS wind pants. They are the most popular piece of equipment NOLS has designed. Many students purchase their wind pants at the end of their course.	
Rain Pants	\$15	\$50-\$100	1 pair	We rent Gore XCR rain pants. Gore-Tex pants may double as wind/rain pants.	

Head, Neck & Hand Layers					
Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Fleece or Wool Gloves	Purchase Only	\$10-\$25	1	Ragg wool, fleece or polypropylene are fine. If your hands get cold easily bring a pair of mittens as well.	
Fleece or Wool Mittens	Purchase Only	\$6-\$20	1 pair	In addition to gloves. Fleece, ragg wool, Dachstein, and army surplus are adequate.	
Mitten Shells	\$7.50	\$35	1 pair	Nylon shells to cover your mittens and/ or gloves. Gore-Tex is acceptable. Modular glove or mitten systems will work well and substitute as your mitten shells and one hand layer.	
Sun hat or baseball cap	Purchase Only	\$10-\$20	1	Should be wide-brimmed to protect from sun.	
Fleece or Wool hat	\$4.50	\$20	1	Any fleece hat that will fully cover your ears. A wool ski hat is fine.	
Rain Hat	\$4.50	\$15-\$30	1	We rent sou'wester type rain hats.	
Balaclava or Neck Warmer	\$4.50	\$15-\$25	1	A balaclava offers almost total head protection and insulation, and a neck warmer compliments a hat and helps retain heat.	
Mosquito Headnet	\$3	\$12	1	Make sure the mesh is not only mosquito proof but gnat and black fly proof also.	
Neoprene Poagies/Paddling Gloves	\$6	\$20-\$35	1 pair	One pair of either. We rent neoprene poagies.	

Footwear					
Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Plastic Mountaineering Boots	\$60	\$220-\$330	1 pair	We do not recommend purchasing these before your course. If you already own a pair or can easily borrow, please bring them. We stock Asolo Evoluzione, Koflach Degree and Scarpa Inverno boots in sizes 5 to 13. <b>If you wear a larger size please contact us immediately.</b> Two pairs of wool socks must fit comfortably inside.	
Leather Boots	Must Bring	Must Bring	1 pair	It is difficult to have the best of all worlds with boots in Alaska, due to wet conditions and varied terrain. Conventional leather boots are best for backpacking. Whether you plan to buy boots before your course or own a pair of hiking boots, <b>be sure to read the boot selection guide. Remember,</b> boots should fit comfortably with 2 pairs of heavy wool socks, regardless of what the salesperson will tell you. A light liner sock may be worn next to the skin, <b>but should not be substituted for heavy wool socks.</b>	

**Footwear (Continued)**

<b>Equipment</b>	<b>Rental Price</b>	<b>Purchase Price</b>	<b>Quantity</b>	<b>Comments</b>	<b>Check List</b>
Socks	Purchase Only	\$9-\$15	6 pairs	Must be 75 to 100% wool, Merino wool, heavy rag type, or thick polypropylene ( <i>No wool/cotton blends</i> ). A pair of neoprene socks (these are lightweight socks constructed out of neoprene that do not have a hard sole and can be found at most SCUBA diving shops) may be substituted for one pair of wool socks. We have a supply for sale.	
Insulated Booties	\$6	\$25-\$50	1 pair	We use a double layer 300-weight fleece. Must be made of some type of polyester insulation such as Primaloft, Thinsulate, or Polarguard. <i>Down booties are NOT acceptable.</i>	
Camp Shoes	Purchase Only	\$32	1 pair	Sneakers, running shoes or Crocs in good condition and with closed toes to wear around camp. Sturdy rubber sandals (e.g. Tevas) are acceptable as camp shoes on kayak section but for mountaineering and backpacking you will need closed-toed shoes. Former students recommend Crocs with neoprene socks as the most versatile camp shoe option.	
Rubber Boots	\$18	\$45-\$100	1 pair	We issue rubber knee boots for loading and unloading boats. This will be your primary footwear during the kayak section. Since the boots take a real beating from the sharp rocks and barnacles along the beaches, we recommend you rent this item from us. If you own a pair of boots that you like, you can bring those. Buy them big enough so you can wear them comfortably with wool-socks.	
Galoshes	\$6	\$20	1 pair	These should fit comfortably over your sneakers or camp shoes and reach your shins. We have a large supply and recommend that you rent these from NOLS. If you use Crocs and neoprene socks for camp shoes you will not need galoshes.	
Gaiters	Purchase Only	\$40-\$60	1 pair	Must be knee-high and durable. Any models with a double closure (i.e. both zippers and snaps) or 2" Velcro are acceptable. Outdoor Research, Black Diamond and Mountain Hardwear are good brands.	

Sleeping Gear					
Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Sleeping Bag	\$30	\$180	1	We use only synthetic-filled sleeping bags (Polarguard 3D, Light Loft, Polarguard HV). For this course your bag should have a temperature rating of at least 20 degrees. <i>Due to the extremely moist environment, down and feather bags are NOT ACCEPTABLE.</i>	
Sleeping Pad	\$3.75	\$75-\$100	1 or 2	Should be closed-cell foam and 3/8" thick or self-inflating. Used for padding and insulation between sleeping bag and ground. We rent closed-cell foam pads, however we highly recommend and sell self-inflating sleeping pads. Therm-A-Rest and Insulmat are great brands.	
Sleeping Bag Compression Stuff Sack	\$6	\$28-\$35	1	A compression stuff sack lined with plastic trash compactor bags is recommended. Lowe and Granite Gear are fine options. Used to make the sleeping bag easier to pack.	

Packs & Bags					
Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Internal Frame Pack	\$60	\$300-\$500	1	We use Deuter and Osprey internal frame packs. Other proven brands include: Arc'teryx, Lowe, Dana Design, North Face and Gregory. <b>If you bring a pack, it will be examined by your instructors to determine its suitability for your course, and route. It must have a volume of at least 6,000 to 7,000 cubic inches.</b>	
Lightweight Zip Duffel	\$3.75	\$15-\$20	1-2	Nylon duffel bags: 1 large (~12"x24") and 1 small (~9"x18"). Used to keep clothing and personal gear organized.	
Large Equipment Bag	\$5.25	\$60	1	These nylon bags are made especially for NOLS paddling courses and you can rent this item from us. If you do have an X-Large light nylon travel bag, bring it along and your instructors will decide whether it will do or not (no canvas).	
Small Stuff Sacks	\$1-\$3	\$3-\$10	1-2	Used to organize personal gear.	
Waterproof Bag Liners	Purchase Only	\$50	5	Plastic trash compactor bags are sturdy and work well. These can be found in any grocery store.	

**Miscellaneous Items**

<b>Equipment</b>	<b>Rental Price</b>	<b>Purchase Price</b>	<b>Quantity</b>	<b>Comments</b>	<b>Check List</b>
Bandana	Purchase Only	\$5.50	1-2	Optional. For multiple uses.	
Sunglasses	Purchase Only	\$50-\$60	1 pair	Any good quality sunglasses with 100% UV protection will work fine. If you wear prescription lenses and have limited vision without them, bring your own prescription sunglasses or look for a quality pair of clip-on polarized shades at a specialty fishing store. Lenses should be dark and block 100 percent Ultra Violet. Glass lenses will get scratched less than plastic. We sell Optic Nerve, Julbo, Bolle, Native Eyewear, Smith, Oakley, and Bausch & Lomb are good brands.	
Eating Gear	Purchase Only	\$5-\$10	NA	A Tupperware (1 to 2 pint) type bowl with a lid, lexan plastic spoon, and an insulated mug. Mug volumes of 12 oz. to 20 oz. are recommended with 20 oz mugs preferred by many.	
Water Bottle	Purchase Only	\$8-\$20	2	A wide-mouth quart or liter size.	
Lip Balm	Purchase Only	\$2.50	1-2 tubes	Stick or cream with sun protection.	
Extreme Sunscreen	Purchase Only	\$5-\$7	1 tube or bottle	A sun protection factor of 30 or greater is necessary. A physical sun block such as clown white or zinc oxide is strongly recommended for people who burn easily.	
Insect Repellent	Purchase Only	\$6	1	A small bottle.	
Notebook and Pen/Pencil	Purchase Only	\$3-\$10	1 each	Steno-type notebook is fine. Avoid heavy notebooks.	
Toilet Articles	Must Bring	Must Bring	NA	Toothbrush, toothpaste, prescription meds, tampons (bring more than you usually use). For liquids, sample sizes of 2 oz. are preferable. Odorous items can be bear attractants and should be avoided. In the past, female students have recommended bringing small box of scent free wet-towels.	
Prescription Glasses and Contact Lenses	Must Bring	Must Bring	NA	If you wear prescription glasses or lenses, you should bring a spare set.	
Disposable Lighter	Purchase Only	\$1	2	Used to light stoves.	
Knife	Bring If You Want	Bring If You Want	1	A small pocketknife.	
Headlamp or flashlight	Bring If You Want	Bring If You Want	1	These are useful in August. Should be lightweight.	

Miscellaneous Items (Continued)					
Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Watch	Must Bring	Must Bring	1	A cheap watch is best; one that is waterproof and has an alarm is preferable. Bring a watch even if you are not accustomed to wearing one.	

### Climbing Gear

**PLEASE DO NOT PURCHASE ANY OF THESE ITEMS FOR YOUR COURSE.** We have found that it works best if everyone uses NOLS-issued climbing gear. If you have your own already, bring it to Alaska and your instructors will examine it to see if it is suitable for use on the course.

Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Snowshoes	\$15	\$150	1 pair	We stock MSR snowshoes.	
Ice Axe	\$9	\$70-\$100	1	60 to 70 cm mountaineering ice axe suitable for steep snow and ice climbing.	
Crampons	\$9	\$60-\$140	1 pair	10- or 12-point crampons with horizontal front points. NOLS uses Petzl Vasak Leverlock crampons. Either strap-on or step-in types are fine. Grivel, Black Diamond, Lowe and Charlet Moser all make suitable models also.	
Climbing Harness	\$7.50	\$35-\$100	1	A sit harness. If you have a high-quality harness with adjustable leg loops, which you think might be appropriate, bring it along. Your instructors will examine it and decide whether it is adequate.	
Helmets	No Charge	NA	1	<b>We do not allow the use of personal helmets on our courses.</b> We will provide helmets at no extra cost.	
Avalanche Transceiver	No Charge	\$299	1	We use BCA Trackers. If you own a transceiver, you may bring it. Your instructors will evaluate its suitability.	
Cordalette	Purchase Only	\$8	20 ft	This 6w mm cord is needed for your glacier rig.	

### Optional Items

Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Waterproof Dry Bags	\$15	\$16-\$25	1-2	We rent 30L bags and sell several size bags from 5- 25L. These bags can be useful for keeping gear dry and clean.	

**Optional Items (Continued)**

<b>Equipment</b>	<b>Rental Price</b>	<b>Purchase Price</b>	<b>Quantity</b>	<b>Comments</b>	<b>Check List</b>
Underwear	Purchase Only	\$10-\$36	1	For men, polyester briefs or boxer shorts. We recommend women bring cotton underwear or silk or nylon underwear with a cotton crotch. Jogging bras made out of supplex/lycra or polypropylene wick moisture away from your skin and are highly recommended. Only 1-2 bras are needed.	
Book	Bring If You Want	Bring If You Want	1	For personal reading.	
Thermos	Purchase Only	\$25-\$35	1	Many students and instructors recommend a thermos. A one-quart vacuum bottle is perfect. A warm cup of tea or cocoa can make a huge difference on cold, rainy days. Be sure it is stainless steel and not glass. Stanley, Aladdin, and Nissan are suitable. We sell 1/2 and 1 liter bottles with the NOLS AK logo.	
Vitamins	Bring If You Want	Bring If You Want	NA	Some students prefer to supplement their diet with a multi-vitamin.	
Trekking Poles	\$5	\$50-\$100	1-2	One or two trekking poles. Ski pole type trekking poles are preferred. Walking sticks or track skiing poles are not acceptable.	
Fly-fishing Gear	Bring If You Want	Bring If You Want	1 set	If you have your own rod and tackle feel free to bring it for the backpacking section, though fishing opportunities are very limited and route-dependent.	
Neoprene Nose Guard	Bring If You Want	Bring If You Want	1	For your glacier glasses to reduce sunburn.	
Instrument	Bring If You Want	Bring If You Want	1	Bring your harmonica or any other small instrument that can withstand a damp environment.	
Neckwarmer	\$6	\$8-\$15	1	Fleece neckwarmers are great and very comfortable. If you own one bring it.	
Swimsuit	Bring If You Want	Bring If You Want	1	Women may also want to bring a lycra jogging top for sunny days.	
Eyeglass Retainer	Purchase Only	\$6	1	A "chum" or "croakie" is indispensable for keeping a hold of your sunglasses.	
Umbrella	Purchase Only	\$20-\$30	1	There will be many rainy days on this course and an umbrella comes in handy when you just want to run over to another camp or take a walk along the beach. The umbrella can also be used to keep some bugs away from your face, as they tend not to fly under the umbrella.	

Optional Items (Continued)					
Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Coffee	Purchase Only	\$8-\$12	NA	Coffee is not a standard part of NOLS rations. If you are a coffee drinker, it's a good thing to bring along.	
Thermos	Purchase Only	\$25-\$35	1	Many students and instructors recommend a thermos. A one-quart vacuum bottle is perfect. A warm cup of tea or cocoa can make a huge difference on cold, rainy days. Be sure it is stainless steel and not glass. Stanley, Aladdin, and Nissan are suitable. We sell 1/2 and 1 liter bottles with the NOLS AK logo.	
Camera/Film	Bring If You Want	Bring If You Want	1	You will need some type of waterproof container. An Army surplus ammo box, Otter Box, Pelican Box, or a waterproof bag works well.	

Camera Notes
<p>Here are a few features to consider if buying a <b>digital camera</b> for your trip:</p> <ol style="list-style-type: none"> <li><b>Durability.</b> The fewer movable parts the better. Waterproof, or at least water resistant, is important.</li> <li><b>Size.</b> Small and light is great, but make sure the buttons are easy to push with gloves or cold fingers,</li> <li><b>Power.</b> Lithium AA batteries are great: they last about 5 times longer than regular AA batteries. Many cameras use specialized (expensive) rechargeable Li-ion batteries. If your camera uses these, make sure to bring 1-2 fully charged spare batteries. Minimize use of the LCD display; it uses a lot of power.</li> <li><b>Memory cards</b> have really come down in price, so bring plenty. Just remember it is a lot of work sorting through lots of bad pictures. A trick of professional photographers is to only show their best pictures, and throw away the bad.</li> <li><b>Optical zoom</b> gives better quality than digital zoom.</li> <li><b>Megapixels.</b> More isn't necessarily better. Quality of the pixels and optics make a big difference. 4-6 megapixel is plenty for most purposes. Go to a local store and ask if you can take the same picture with a couple of different cameras, and then compare them. Buy the one you like best from the store that helped you.</li> </ol>

Shared Group Equipment—NOLS will supply		
Expedition members share both the use of and the responsibility for the group gear that NOLS issues. NOLS charges only for group equipment lost or damaged. Keep in mind that NOLS evaluates gear from a number of perspectives beyond those that an individual user might consider. Performance, durability and simplicity are all contributing factors towards our gear selection.		
Tents	Kayaks & Paddles	Shovels
Stoves (MSR, white gas)	Maps & Charts	Fishing Gear
Fuel Bottles & Funnel	Cooking Gear/Spice Kits	Repair Kits
Compass	Reference Books	
<b>First Aid:</b> Our instructors carry adequate first aid kits. There is no need to bring you own.		

## Boot Selection Guide

NOLS has been outfitting people with boots for many years and our priorities have remained the same: We want you to have boots that provide adequate protection for your feet, that are durable enough to withstand a month of rugged wear, and that provide reasonable comfort. Many boots available on the market do not meet these criteria, and a boot that is good for your personal use may not be a good boot for your NOLS course.

By our standards, a boot should have the following:

- A sole that provides good traction, like Vibram® or other lugged sole.
- ½ to ¾ length shank or **full poly mid-sole** stiffener within the sole to provide foot support and protection.
- Preferably a full-grain, one-piece leather upper—**Boots that are constructed from a combination of nylon and leather sewn together are not durable enough and are unacceptable.**
- Good ankle support for rugged off-trail hiking with a heavy pack.
- Enough room to fit 2 pairs of socks and still allow your foot to move. Boots that are too small are a common cause of blisters!

The following lists are not exhaustive, but should help define what boots are acceptable for your course. The boots on this list are older styles as well as some current models. **PLEASE SEE YOUR ENROLLMENT PACKET FOR INSTRUCTIONS ON HOW TO PROPERLY FITBOOTS.**

### **EXAMPLES OF ACCEPTABLE BOOTS\* (WITH A PROPER FIT)**

Asolo, Power Matic 400 GV, TPS 535, Revenge GTX  
Lowa, Tahoe GTX, Tibet GTX, Banff, Khumbu MID GTX  
Garmont, Dakota, Expedition, Montana  
La Sportiva, Latok Trk, Thunder II GTX, Cascade GTX  
Montrail, Blue Ridge, Torre, Traverse, Helium GTX  
Raichle, Mt Peak, Mt Trail  
Scarpa Delta M3, Barun GTX, Kailash GTX  
Technica, Galaad NB, Galaad SD GTX  
Vasque Zephyr II, Luna, Wasatch GTX  
Sundowner Summit GTX

\*Please note that boot manufacturers often rename their product line. Visit the manufacturer's website or contact us if you have questions.
