

Equipment List

Pacific Northwest Backpacking

Welcome to NOLS!

We look forward to having you with us this summer in the Pacific Northwest.

Reading this list will assist you in deciding what to bring. The gear listed is typically used on this course; the actual gear required may vary slightly with course route, curriculum goals, seasonal weather conditions, and instructor preference. Please try to avoid bringing anything that is not on this list. Remember that you will be carrying all your gear and that extra items affect pack volume and weight.

We can provide you with all of the equipment on this list, other than those items designated as “Must Bring.” We recommend that you only bring gear that you already own or that you can obtain inexpensively. On the first day you will meet with one of your instructors to review each item you bring from home. If your gear meets our standards, you can use it on your course. If not, you may store any excess gear at our headquarters.

While you are not obligated to rent gear from us, there are several reasons why we suggest it. Our rental gear is high quality, chosen and maintained specifically for the use it receives on our courses. The rental prices are reasonable given the wear the equipment receives. Also, if you plan to eventually purchase gear, you will have a better understanding of your future needs and preferences after your NOLS expedition. Finally, even if your equipment is appropriate, it will receive a lot of hard use. Students are often surprised at the amount of wear put on their personal gear in a month.

The availability of each item is indicated as follows:

Available at NOLS - Indicates that the item is available from NOLS, but for PURCHASE ONLY.

Must Bring - Indicates that the item is NOT AVAILABLE from NOLS.

Rental Only - The item is available to RENT from NOLS, and can be purchased at the end of your course (the rental price will be applied to the purchase price).

The rental prices listed cover the entire course. Purchase prices listed are for new gear. ALL PRICES ARE SUBJECT TO CHANGE. The rental and purchase prices located in the gear checklist will allow you to estimate your charges; final charges will vary depending on the amount of equipment that you rent or purchase from us. You have been charged an equipment rental deposit in addition to tuition. This deposit will be applied to the charges you incur for equipment rental, cleaning, purchase, and any loss or damage to our gear. If your bill is less than the deposit fee, the difference will be refunded to you by mail.

If you have any questions, or if you would like more information regarding any of the items in the equipment list, please contact the NOLS Pacific Northwest outfitting staff at (360) 445-6657; E-mail: pnw_outfitting@nols.edu; or visit our web site at <http://www.nols.edu>. You can also write to us at NOLS PNW Outfitting, P.O. Box 527, Conway, WA 98238

Upper Body Layers

NOLS uses a layering system where varied pieces of clothing are worn to achieve optimum body temperature control. The upper body garments listed here are either synthetic garments which retain their insulating properties even when wet, or nylon or Gore-Tex layers which help prevent heat loss by cutting wind, rain, and snow. You will need 3 insulating layers, plus a wind and a rain layer. All must fit comfortably over each other so they can all be worn at the same time. Your top insulating layers must be fleece made, of Polartec 300, or an insulated jacket with a zipper.

Recommended Boots

Medium-weight, off-trail backpacking boots work best. This type of boot is constructed with a full grain leather upper and typically has a Vibram® rubber sole. Some models utilize an injection molded, composite rubber sole with a randed welt to bond the leather upper to the sole. Both types of sole are acceptable. These boots are designed to provide good support for off-trail hiking with heavy packs or extended trips, and usually require less break-in time than heavyweight mountaineering boots.

The following list is not exhaustive and is to be used for suggestions only. The boots listed here should help define what type is acceptable for your course. It is fine to substitute a similar boot for one listed here provided the model that you bring is a good quality leather boot designed for extended backpacking expeditions with heavy packs.

Please refer to your enrollment packet for specific boot fitting information. If you have any questions about fitting boots, call NOLS PNW at 1-360-445-6657 or NOLS Admissions at 1-800-710-6657, or look us up on the web at <http://www.nols.edu>.

Group Gear

Expedition members share both the use of and responsibility for the group gear that NOLS issues. NOLS charges only for group equipment that gets lost or damaged. Keep in mind that NOLS evaluates gear from a number of perspectives beyond what an individual user might consider. Performance, durability and simplicity are all factors we consider when we select our gear.

EQUIPMENT CHARGES WORKSHEET

An equipment deposit is required of each student to cover the average cost of equipment rental and cleaning. You will be charged additionally for the replacement of any lost or damaged group equipment. Your actual expense will vary according to how much gear you rent and purchase from NOLS. Additional purchases of new and used gear may raise your total outfitting expense above your rental deposit. Rental and purchase charges will be totaled at the end of your course. Those of you using some of your own equipment may be eligible for a refund, which will be sent to you by mail. If you anticipate a balance over your equipment deposit, please make arrangements for payment on the final day of your course. Acceptable payment methods are cash, personal checks, traveler's checks, VISA, or MasterCard.
