

Equipment List

Semester in the Rockies

Welcome to NOLS! We look forward to having you with us at NOLS Rocky Mountain. Please take time to read the following information before making your equipment choices.

Equipment selection and care is an essential wilderness skill. There is a bewildering variety of equipment on today's market. NOLS Rocky Mountain provides an Outfitting Department for our students for this very reason. We are a full-service retail store and rental facility for outdoor equipment and clothing. We have expert staff with over 40 years experience that can completely outfit you from head-to-toe for your expedition needs. The products that we carry have been selected for and field-tested on NOLS Rocky Mountain courses.

There are three options to help guide your gear purchasing process:

- 1) Purchase from us. We have a full retail store with experienced staff that can outfit you completely, tailoring your options according to route, weather, and time of year. This will guarantee you will get only the equipment you need with no extra purchases.
- 2) Already have items? Bring them along! Your instructors will inspect your gear and determine if it is suitable for your course. If an item is not approved, you can leave it with your luggage in our storage lockers.
- 3) Want to shop before your course begins? Visit our preferred retailers—additional info below.

We understand that the equipment list may be daunting. That is why when you purchase or rent from us, our experts will provide you with some of the best gear, boots and clothing on the market, at a reasonable price, with consideration of the route, weather, and time of year you are traveling. Who knows—maybe you'll even save money on any extra airline fees, such as extra baggage costs and/or overweight luggage fees on your travels to NOLS Rocky Mountain.

If you already own gear or clothing, you are welcome to bring any of the items on the equipment list. We are big advocates of re-using or recycling where appropriate. As mentioned, your instructors will inspect your gear and determine if it is suitable for your course. If an item is not approved, you can leave it with your luggage in our storage lockers.

If you wish to buy gear before your course start, consider our preferred retailers. Preferred retailers are retail stores whose staff is familiar with NOLS. Note: If you buy a new piece of gear or clothing for the course, please keep the tags on the item and save your receipt. That way, you have the opportunity to return your purchases if necessary. Ask the NOLS Admission Office about Preferred Retailers in your area by calling 800-710-6657 or visit www.nols.edu and search for “preferred retailers.”

The availability of each item may be indicated as follows:

- Purchase Only: The item is available at NOLS for PURCHASE ONLY.
- Must Bring: The item is NOT AVAILABLE at NOLS.

Rental prices cover the entire course. All prices are subject to change.

In addition to your course tuition, you have been billed an equipment rental deposit. This deposit will be applied directly to the charges you incur for equipment rental, cleaning, purchase of personal items, and any loss or damage to our gear. Total charges will vary depending upon the amount of equipment that you rent or purchase from us. The equipment rental and purchase prices located in the gear checklist will allow you to estimate your charges. If your bill is less than the deposit, the difference will be refunded to you by mail. If you think that your bill may exceed the deposit, please bring cash, travelers' checks, personal check, Visa or MasterCard to cover the excess. If you do not have a means for payment, we will bill you by mail.

If you have any questions or if you would like more information regarding any of the items in the Equipment List, please contact Rocky Mountain Outfitting at (307) 332-1422 or (307) 332-4784 | outfitting@nols.edu | www.nols.edu.

Upper Body Layers

We layer our clothing, combining different garments to achieve optimum insulation and protection from wind, rain and snow. We use either synthetic or wool fibers, which insulate when wet. We avoid cotton, which is poor insulation when wet. During spring, early summer and fall, it's common to need 3 insulating layers and a vest.

Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Base Layer Mid-Weight Synthetic	Purchase Only	\$45-\$60	1	Mid-weight underwear top made of wool, polypropylene, Capilene® or ZeO2™.	
Middle Layer (Fleece Pullover)	Purchase Only	\$65-\$95	1	Polyester fleece pullover/expedition weight top of Polartec® 100 or 200.	
Top Layer (Synthetic Jacket)	Purchase Only	\$190	1	Synthetic full-zip fiberfill jacket. We carry the Mountain Hardwear Compressor jacket with hood.	
Wind Shirt / Anorak	\$20	\$55-\$80	1	A lightweight, breathable, durable nylon wind shell in either pullover or parka style. Lightweight nylon exercise jackets usually are not sturdy enough to survive a NOLS course.	
Rain Parka	Purchase Only	\$120	1	A sturdy, roomy waterproof jacket with a hood. Both coated nylon and breathable fabrics such as Gore-Tex® are acceptable.	
T-Shirt	Purchase Only	\$17-\$40	1	A cotton or lightweight polyester/Capilene T-shirt.	

Our advice? Bring the sweaters, fleece jackets and other layers you think might work. We'll advise you on the best combination for your course, the season and area. Synthetic puffy jackets are highly recommended.

Lower Body Layers

You will need 1-2 synthetic insulating layers (usually an under layer and in early fall, a pair of fleece pants). All must fit comfortably over each other so that they can be worn at the same time.

Equipment	Rental Price	Purchase Price	Quantity	Comments	Check List
Base Layer Mid-Weight Synthetic	Purchase Only	\$40	1 pair	Mid-weight bottoms of high performance polyester, polypropylene, ZeO2 or Capilene®. Cotton and cotton blends are not acceptable.	
Middle Layer (Exp-Weight Synthetic)	Purchase Only	\$60	1 pair	Expedition-weight bottoms that fit comfortably over the under layer bottoms.	
Fleece Pants	\$20	\$45-\$60	1 pair	Polartec® 200 or equivalent. Side zippers (full length, or knee high) make it easier to put pants on over hiking boots. Optional for August courses.	
Wind Pants	\$20	\$60	1 pair	Nylon shell pants. These should fit comfortably over all lower-body layers. Side-zippers allow the pants to be put on over boots. Breathable fabrics such as Gore-Tex are acceptable, but lightweight 'running pants' are NOT durable enough. If you own Gore-Tex bibs, bring them. We recommend renting NOLS wind pants. They are the most popular piece of equipment NOLS has designed. Many students purchase their wind-pants at the end of their course.	

Lower Body Layers (Continued)

Our advice? Bring the synthetic or wool long johns, fleece or exercise pants you think might work. We'll advise you on the best combination for your course, the season and area.

If you have any doubts about boots, feel free to give us a call.

Recommended Boots

Medium-weight, off-trail backpacking/light mountaineering boots work best. This type of backpacking boot is constructed with a full grain leather upper and typically has a Vibram® rubber sole. Some models utilize an injection molded, composite rubber sole with a randed welt to bond the leather upper to the sole. Both types of sole are acceptable. These boots are designed for extended backpacking, provide good support for off-trail hiking with heavy packs, and usually require less break-in time than heavyweight mountaineering boots.

The following list is not exhaustive and is to be used for suggestions only. The boots listed here should help define what boots are acceptable for your course. It is fine to substitute a similar boot for one of the types listed here provided the boot that you bring is a good quality leather model designed for extended backpacking expeditions with heavy packs.
