- Three tangible action items participants should be able to implement after attending this presentation. These action items should be measurable and should not require significant resources

1. Review your organization's risk management plan and policies to address or identify issues raised in current legal cases.
2. Incorporate discussion of current court cases and lessons learned into your organization's staff training.
3. Work with legal counsel to review organization's operations and significant documents (participant agreement, terms of agreement, website) in light of relevant case or statutory law in your jurisdiction.

Briefly describe specific expertise in the subject area for this presenter and previous presentation experience. (Cathy)

I focus my practice solely on assisting adventure and recreation education and related programs in the legal/risk management area. As a result, I feel comfortable and qualified in speaking on a variety of topics. I have presented at the WRM Conference almost every year since its inception in 1994, and have co-presented a WRM legal pre-conference with Reb every year since its initiation. I co-author (with Reb Gregg) articles for the *ACA Campline* and the *Outdoor Ed Adventure and Recreation Law Center*, and was former co-author with him of the *Outdoor Education & Recreation Law Quarterly* publication (no longer in circulation). I co-chaired (with Reb Gregg) the *Recreation & Adventure Law CLE* program in Colorado for 4 years, developed the 2 day topic presentation areas, selected the speakers, co-chaired the sessions and presented. I speak at a variety of other national and regional recreation/adventure industry conferences around the country and have done so for many years. In addition to the variety of work I accomplish for my clients in the industry, these speaking and writing opportunities have helped me develop my expertise in this area of the law. Please see my individual bio and website for more information.
