### Cabins at the Wyss Campus

The campaign funded eight cabins for student lodging. This comfortable, energy-efficient and attractive housing allows us to teach 32 more wilderness medicine students each year.

### “La Sede”: The Patagonia Classroom

A weatherproof community structure for classes, gatherings, and wilderness medicine courses. “La Sede” (the building) is a local Patagonian name for a space for festivities, celebrations and official meetings.

**Unrestricted annual giving**

provided a pandemic lifeline.
