You are required to complete both written and practical testing to recertify on this Recertification course. To achieve a passing score (70%) on the written multiple-choice exam, you must review previous course materials. Please come prepared.

## **WAFA/WFR/WEMT RECERTIFICATION REQUIREMENTS**

### **NOLS Wilderness Medicine Graduates**

NOLS Wilderness Medicine certification holders will be afforded a one-year period after expiration within which to recertify. This one-year re-entry period is only offered to those certified through NOLS Wilderness Medicine. Enrolled students must bring their certification card to the course so that the instructor can verify the expiration date.

### **Graduates from Other Wilderness Medicine Providers**

NOLS Wilderness Medicine welcomes eligible graduates from other providers to recertify on our Wilderness First Responder Recertification course or our Hybrid Wilderness First Responder Recertification course. To be eligible for recertification you must possess a current (unexpired) WAFA certification, WFR certification from a provider whose WFR course is a minimum of 70 hours, or WEMT certification.

There is no re-entry period once your certification expires. It is your responsibility to make sure your certification meets this standard. If you are unsure, please contact NOLS Wilderness Medicine to verify your certification qualifies before enrolling in a course.

Students certified by other wilderness medicine providers are required to submit a photocopy of their unexpired certification card on the first day of the course. We cannot issue you a new card until we have verified your previous training.

Students recertifying the wilderness portion of their WEMT certification must submit a photocopy of their current EMT card on course.
