

WILDERNESS UPGRADE FOR THE MEDICAL PROFESSIONAL

Sponsored by Ready SF and NOLS Wilderness Medicine

DATES: August 19-23, 2019

COST: \$725 (tuition only)

LOCATION: Planet Granite, 924 Old Mason St, San Francisco CA 94129

COURSE DESCRIPTION

The Wilderness Upgrade for Medical Professionals (WUMP) course is a nationally recognized program that trains urban caregivers to respond to medical emergencies in remote settings. This 48-hour course is ideal for Emergency Medical Technicians (EMTs), paramedics, nurses, physicians, and other medical professionals.

The course will upgrade an EMT to a Wilderness EMT and all others to a Wilderness First Responder (WFR) in accordance with current standards in pre-hospital medicine. Special topics include but are not limited to: long-term patient care and monitoring, wound management, selective spine immobilization, reducing dislocations, litter packaging, epinephrine administration, field care for environmental emergencies, and advice on expedition medications. The WUMP is not a technical rescue or survival course. The focus of the program is on prevention, decision making, improvisation, and long-term medical care in a wilderness setting.

You'll learn to apply your urban emergency care knowledge to the wilderness through case studies and practical scenarios with mock patients. Our seasoned instructors will guide you through five days of intense, hands-on learning to make sure you are prepared in the wilderness.

Upon successful course completion you will earn the following NOLS Wilderness Medicine certifications: Wilderness First Responder or Wilderness EMT (depending on your current certification) and Epinephrine Auto-injector.

CLASS FORMAT AND PERSONAL PREPAREDNESS

Check in is at 7:45 am on the first day of the course. Course days run from 8:00 am to 5:00 pm, with two additional evening sessions. The format for this 48-hour WUMP includes classroom lectures integrated with practical scenarios and skills practice sessions. Attendance is required at all scheduled classes.

Scenarios and practice sessions will take place both inside and outside. Bring outdoor clothing appropriate for lying on the potentially wet, snowy, and/or cold ground playing the role of both rescuer and patient. Frequently stage (mouflage) blood and make-up are used to enhance the realism of a scenario. The classroom environment generally lends itself to a pair of comfy shoes or slippers and a camp chair. A 4-hour evening, outdoor mock rescue is part of the curriculum; dress accordingly.
