### **COURSE DESCRIPTION**

Whether spending time in the backcountry is your passion or your profession, you should never have to ask, "What do I do now?" Prepare for the unexpected with this fun, hands-on introduction to wilderness medicine.

If you like to take short trips relatively close to medical resources, work at camps or lead wilderness trips, enjoy weekend family outdoor activities, or recreate outdoors, this course is for you.

You'll learn the Patient Assessment System, how to provide effective first aid treatments for injuries and illnesses common in the outdoors, how to manage environmental emergencies, and how to make appropriate evacuation decisions. You will spend half your time practicing skills and participating in realistic scenarios.

NOLS Wilderness Medicine's course is approved by such organizations as the American Camp Association, the United States Coast Guard, and other state as well as federal agencies.

Upon successful course completion you will earn the following NOLS Wilderness Medicine certifications: *Wilderness First Aid, Epinephrine Auto-injector*, and on courses with the CPR module, *Adult and Child CPR & Airway Management*.

## WAF/ WFR/ WEMT RECERTIFICATION REQUIREMENTS

NOLS Wilderness Medicine certification holders may take a **Wilderness First Aid** (WFA) course to recertify a WAF, WFR or WEMT certification. Certification holders from other wilderness medicine training organizations cannot recertify through a Wilderness First Aid course.

NOLS Wilderness Medicine certifications will be afforded a one-year period after expiration within which to recertify. You should bring your certification card to the course so the instructor can verify the expiration date. For more information please visit our recertification policy at the following link: <https://nols.edu/en/courses/wilderness-medicine/recertify/>

The **Wilderness First Aid** (WFA) course is an introductory course for individuals with no prior knowledge and generally does not include CPR.

The preferred way to recertify your certification is to enroll in a Wilderness First Responder Recertification course (WFR-R), or through our Hybrid WFR Recertification course, which adds an online component in addition to traditional scenarios and skills.

These courses are specifically designed for students needing recertification. You can find more information at the links below.

WFR-R: [www.nols.edu/en/courses/courses/wilderness-first-responder-recertification-WFRR/](http://www.nols.edu/en/courses/courses/wilderness-first-responder-recertification-WFRR/)
