NOLS WILDERNESS MEDICINE MISSION: The Wilderness Medicine goal is to provide the highest quality education and information for the recognition, treatment, and prevention of wilderness emergencies. NOLS Wilderness Medicine is an internationally recognized program that trains participants to respond to emergencies in remote settings.

For over a decade, the NOLS Wilderness Medicine (<https://nols.edu/en/courses/wilderness-medicine/>) has been the most recognized and respected teacher of wilderness medicine, training over 250,000 students around the world. At NOLS Wilderness Medicine, students learn treatment principles and decision-making skills, not the memorization of long lists. Our courses are rigorous and intensive. They will challenge your decision-making skills and they will get you ready.

WHAT CAN YOU EXPECT: Expect dynamic instructors with lots of international Backcountry and Emergency experience. Expect to spend lots of time outside with realistic scenarios. There will be intense but rewarding days. We have fun on NOLS Wilderness Medicine courses while learning about very serious topics.

You can expect a curriculum that is evidence-based, not just copied out of a textbook. We teach wilderness medicine practices and protocols that are supported by a physician-based medical advisory panel and disseminated by our curriculum director. This means you're getting the latest findings and protocols in the industry.

WHAT DO WE EXPECT OF YOU: We expect you to be on time each day. We expect you to come prepared each morning. We expect you to be respectful of other participants and our staff – both in the classroom and during our scenarios outside. We expect you to take good care of our equipment. We hope you will ask us if you don't understand as our goal is that all participants will gain confidence to help others in need.

We ask that all participants' cell phones and computers will be turned off during class time. No smoking during our class time (which includes scenario time). We expect you to follow our COVID-19 Guidelines.

HOW TO GET TO FLÅM: We highly recommend that you check into bus and train departure times before you book your flight to Oslo or Bergen. Our course is done on Sunday September 20 at 18:00. You can safely book a bus or train ticket to leave Flåm after 19:00 this day.

By car: Flåm is a 335 km drive to Oslo (via the RV 50/R7) and is 166 km from Bergen. Make sure you have a car that drives well on winter roads. You will have to drive over some high mountain passes in order to reach Flåm. More spectacular views are hard to find but the roads can be challenging as well.

By train: Take the Bergen Railway between Oslo and Bergen to Myrdal station and change there for the [Flåm Railway](#). The Bergen Railway crosses the Hardangervidda (Hardanger Plateau), 1237 meters above sea level, and is one of the most spectacular main railway lines in Europe. This has repeatedly been named one of the world's finest and most exciting railway journeys.

By bus: There are several busses to Flåm. The "Sogn bus" has several daily departures and takes approx. 3 hours from Bergen to Flåm. You can find the correct bus route from your departure point to Flåm at [NOR-WAY express](#) bus and [Fjord1](#). There are also buses from Oslo and these are often less expensive than the train.

By boat: The Norled Express Boat departs once daily from Bergen to Flåm. Departure is from Bergen Strandkai Terminal around 08:00 and return from around Flåm 15.30. The trip takes approximately five and a half hours.
